What Are Progressions?

Secondary Progressions

2. **Flip to the number of days after your birth that you are old**
3. **BAM!** You have your secondary progressions for that age!

In real, the math is a tad more complex, but that is the basic shape of it.
Why Do We Care?

It expresses our unfolding personality.
The Sun: Self Perception

Think in Layers

The progressed sun only modifies its expression.

No matter where your progressed sun wanders, your birth sun is your birth sun.
