On House Derivations
The interaction of the person with others as derived from the study of the Natal Chart under examination

Speaker, Robert Corre

Based on the Methodology of Morin de Villefranche from AG21, "The Morinus System of Horoscope Interpretation" and as taught by the late Zoltan S. Mason of New York
The Morin and Mason Tradition

J.B. Morin de Villefranche      Zoltan S. Mason

(1583 – 1656)                                                    (1906 – 2002)
Morin’s traditional approach to forecasting (from his Astrologia Gallica) may be likened to a chain with four links. First comes the NATAL based on book, AG 21 – Morinus System of Horoscope Interpretation. Followed by the three timing techniques:

- AG 22 – Primary Directions
- AG 23 – Revolutions (Returns)
- AG 24 - Transits
What are Derived Houses?

The First House is called the House of Life, but besides this, we have the possibility of taking each of the other 11 houses as a "first house".

This technique is called derivation or "derived houses".

Read Book 21, Chap. 14, and in particular page 135.
Technique - Be able to locate an event, a matter, a person

- Zoltan Mason taught “The great skill is to locate an event, a matter, a person. Until you learn this, you are not going to be able to derivate”.
- “Although this seems to be very simple, it seems few apply it with great ease. It is very dangerous in the hands of a person who doesn’t know astrology well enough.”

- AG 21 – Morinus System of Horoscope Interpretation
What are *the* Fundamental Considerations for House Derivations?

1. Be able to locate, i.e., The House to which an event, a matter, a person belongs

2. How important is the thing asked about?

✓ But there is a very important caveat:
   Must ask yourself 4 questions
   - Creditable birth time
   - Gender
   - Age at time of consult
   - Social/cultural background
Preliminary Considerations

Let’s say we have a number of questions that we would like to answer about her:

- Husband seen?
- Mother-in-law?
- Children?
- Lover/s?
- Relationship to her lover’s destiny and his death?
- How is her death seen in relation to his?

BUT FIRST, become acquainted with the natal !!!

Astrology is the study of motivation and drive.
Our priority is, observe first

**Ascendant** – The Sign’s nature and the house number* to which it corresponds, then what is the

- Location of the **Ascendant’s Ruler**, first by house position, and then sign position.
- Who and *where is the Ruler’s Dispositor?*
- Aspects to the Ascendant, by exactness
- Aspects to Ascendant’s Ruler, by exactness

Then repeat observations with

- **Midheaven** (actions/undertakings/honors)
- **Moon** (instincts/habits/constitution)
- **Sun** (volition/vitality/reason)
- Finally, look for anything extraordinary

* Why is ♀ so important?
Our priority is, observe first

Ascendant – The Sign’s nature and the house number* to which it corresponds, then:

- Location of the ASC’s Ruler, first by house position, and then sign position.
- Next, Who and Where is the Ruler’s Dispositor?

So when you look to
- The ruler of the ASC, you ask about its house position
- And then the house position of the Dispositor;

SO you say to yourself, “The person belongs to the house where you find the ROA and; then connected to the house where you find the dispositor.

Why is D so important?
We would like to answer some about her life. How is her:

- Relationship to her lover’s destiny and his death?
- How is her death seen in relation to his?
- Husband seen?
- Mother-in-law?
- Children?
- Lover/s?

SO now, we ask, how may houses are in a chart? **144 Houses!**

In fact, there are 12 “First Houses”; *it depends where you start to count*. In fact, there are not 12 Houses, but 144 Houses. Everything depends on where you start to count, so what house do you call the “First House”. Depends on your question. Lover’s destiny?
It should be made clear that in a birth chart the essential meaning of a house is an accidental thing which in itself pertains to the native alone and to no other person, that is, the meaning of the 1st house is the physical constitution, character, and temperament of the native alone, and no other; the meaning of the 12th of the native alone and no other, etc., the meaning of the 8th, and no other. Book 21, Ch. 14, Pg. 131 (Baldwin translation)
Chapter 14: The interaction of the natal horoscope with those of other individuals

This is our lecture topic.

Is possible to make judgments on the native’s parents, spouse, children, etc., from the birth chart as every astrologer has done since Ptolemy?

YES!
Example # 1 of a Derived House

The 5th is for children, pleasures, arts but also lovers.

If you take the 5th, as the lover as the 1st then, where is actually the 2nd house of the lover? Your 6th House!

This is what is meant by House Derivation. It allows us to make statements about others in our lives based on our own natal chart.
Example # 2 of a Derived House

The 5th is not only children, pleasures, arts but also lovers.

If you take the 5th as the 1st in someone’s chart, then where is actually the 8th house of the 5th? Your 12th House!

This is what is meant by House Derivation. It allows us to make statements about others in our lives based on our own natal chart.
Radical vs. Derived

Therefore, we have 12 radical houses in which each house is related and counted from the natal first.

Therefore, if we mention 7th it means the 7th from the 1st. So can we speculate about Princess Diana and her death?
What can we say about the background, inheritance, and destiny of Prince Charles from Princess Diana’s chart?
When you look to
The ruler of the ASC,
You ask about its house position; and then the house position of the Dispositor; so you say to yourself, “The person belongs to the house where you find the ROA and then is connected to the house where you find the dispositor.”

Mistakes are easily made. All this is not so simple and some astrologers make silly mistakes. Describe the complete personality of the husband and his actions.
