Macro: Step away from charts!

First – Step away from the chart, if you want a larger view. *Refer to it quickly* if you must.

Second - Read different opinions from both sides removing any bias. The mark of a good business/financial astrologer is that they step away from bias (hard to do).

Study history and know the returning cycles relating to that history.

Rulerships are good to know.
Start with Larger Brushstrokes

- Read other industries – the arts, business, finance, culture, law & stay connected and that isn’t through Facebook! Step OUT of charts.

- Futurists state start at macroscopic (e.g. Neptune or Uranus) rather than microscopic (Mercury) view.

- Play with ideas – remember...travel 200 years ago was by horse...now it’s a car...same idea...different vehicle...
What are the big patterns?

- Is something beginning or ending or at 29 degrees?
- Declinations
- **Ingresses of Planets and Quarters:** Chiron enters Aries (April 2018 and February 2019) and Saturn enters Capricorn (Dec 20, 2017). Uranus enters Taurus (May 15, 2018/March 6, 2019 to 2026)
- **Transiting nodes, planets (and corresponding eclipses) McWhirter Wheel.**
- Return of planets to Synodic Cycles in play.
- Pile up of upcoming Synodic Cycles (most of which are in the Balsamic Phase).
Is something Ending or Beginning?
Know *Endings* combined with *Ingresses*: Harmonic Convergence of August 1987!

**Incubation:** Market tanked late 1987. Several cycles were ending.

(February 12, 1988) *Saturn/Uranus* conjunction at 29 SG 55’ (Galactic Center).

**Ingresses:** The day after that, *Saturn* entered Capricorn (February 13, 1988)

The day after that, *Uranus* entered Capricorn (February 14, 1988).

*Pluto* entered Capricorn: 2008 – Global Meltdown
"Worry is like a hamster wheel, it gives you something to do, but it doesn't get you anywhere."
In Charts: USA, NAFTA,

- *Pluto is still in the incubation stage!*

- *Returns to US Pluto:* February 19, 2022 but does not complete its return until December 27, 2022!

- NAFTA has several planets in Capricorn....Mars at 9 degrees being one of them, Mars rules their 7th house, trade, cooperation.

- *Saturn is still in the incubation stage!*

Saturn traveling between 28 degrees Sagittarius to 09 degrees Capricorn remains as Antiscia (Solstice Point).

GALACTIC CENTER WHERE ANIMAL SPIRITS RESIDE!
Animal Spirits:

A term used by John Maynard Keynes in one of his economics books. The term is used to describe human emotion that drives consumer confidence. According to Keynes, animal spirits also generate human trust.... *Saturn is still in antiscia to Sagittarius. When Saturn DIRECT on Sept 6, 2018 at 2 Capricorn, that triggers 28 Sagittarius once again!* Animal Spirits are released and markets shift!

FACEBOOK (FB) will be leaving the tech sector, specifically the information technology sector. The S&P Dow Jones' Global Industry Classification Standard will be changed to launch a new communication sector, built largely out of stocks that currently occupy the telecom, technology and consumer discretionary sectors.

Among the technology stocks that will switch sector classification are FB and GOOGL. AAPL, MSFT and INTC will remain in the tech sector. From: April 16, 2018

An Optimist’s Guide to Thriving in the Age of Accelerations

By Thomas L. Friedman

486 pp. Farrar, Straus & Giroux. $28.

From Donald Trump to Brexit to Marine Le Pen, one thing that unites the unhappy West is a profound sense of *mystification*. Across Europe and North America, people have an acute feeling that their world is accelerating away from them — but they *can’t quite understand* why. There is no narrative. Hence the attraction of leaders who “tell it like it is” and identify *convenient scapegoats*, like *immigrants* or the European Union. *But what most people really crave is an honest explanation.* As with patients on a psychiatrist’s couch, the first step is to understand what is going wrong. Then you can decide on the *medication*.
