Research Isn't Extraterrestrial

Bring your space suits and get ready for on-the-edge exploration of how librarians can incorporate web-based tools into research instruction and how students can use the same tools as research products. This presentation specifically explores ThingLink (presentations), Piktochart (infographics), FoldPlay (images), and Aurasma and QR codes (layered realities).

Tool Overview

I invite you to take notes on ideas that come to your own mind as we explore these tools.

FoldPlay (http://foldplay.com/foldplay.action):

ThingLink (https://www.thinglink.com):

Piktochart (http://piktochart.com):

Aurasma (http://www.aurasma.com/#/whats-your-aura):
