Write From The Heart

Have students search in their hearts for stories to write about.

- My dog Sunny
- Lake Texoma
- When my baby brother was born
- Grandma's place in the summer
- Floating with my dad
- My best friend Peter

I will brainstorm topics to write about.

I will write and draw ideas to write in every piece of my heart.
Write From The Heart

This heart is the perfect ice breaker for students to think about topics to write during Writing Workshop.

Have the students brainstorm about things they love, people, places, animals and things and ask them to write them down in their heart, and draw them.

They don’t have to fill their hearts at once, but every time they have an idea, they can go back and write it!

Have them cut their heart and paste it in their Writing Journals. It should be one of the first lessons of the year.

Have Fun Writing From The Heart!
