Presentations:

Developing a Future Ready Classroom Using the 4 Cs/5Cs

Use inquiry-based learning to support the 5 C's: collaboration, communication, critical thinking, creativity, and global community. We will look at effective strategies to build future ready, student lead classroom by cultivating curiosity, building student understanding and ownership of their learning. This session will focus on ways to integrate various tech tools, apps, and extensions to support inquiry. Participants will walk away with hands-on experiences, sample lessons and resources, and classroom applications.
